

GLOBAL OIL AND GAS SUPPLIES

Features

Toll Free 1 (844) 758 - 8884

Benefits

GLOBAL FLOW C-100

High Compression Traveling Cage

- Next Generation of high compression traveling cage
- Patented Tangent Flow insert
- Scientifically proven technology (U Of C Research Center)
- When spacing is critical for higher compression
- No seat plug required
- Stainless steel & Stellite alloy components for corrosion resistant environments

*Patent Pending

- Minimize gas breakout
- Ultra close clearance pump Valve spacing
- Higher compression ratio between standing and traveling valve
- Increased production
- Eliminate cage from being installed upside down
- Higher compression maximizing pump efficiency
- Decrease pressure drop up to 40% and increase pump fill by up to 25%

INCREASING THE COMPRESSION RATIO
